

Figure 11.15

Key

- Turbines posing >1.5% of total estimated risk collision to divers
- Turbines posing potential displacement risk to nesting merlin
- Other turbines

Client:

Project:

Viking Wind Farm

Title:

The location of proposed wind turbines that are particularly likely to have adverse effects on red-throated divers and merlins

Scale:

1:80,000

Date:

27th March 2009
